## \$3.7 million building proposed

by Brian Walker

Conesaga College could have a new \$3.7 million administration building by August, 1991.

According to David Pate, director of physical education, 200 Masters of Education and University of Toronto's proposed Conesaga's proposal for a new administration building is being approved. Pate hopes to submit the proposal in April or May. The building will consist of 53,7 million in construction plus additional fees, furnishings and utilities for heating. Including the total price for more than \$4 million. Conesaga will take more than a year to complete.

"We're not ready yet, but we want to be prepared if the faculty goes on strike," said Pate.

A new administration building has been planned since the early 1970s, but there was no time for it. The building, however, the existing building, which was only intended to be a temporary building and which has three separate entrances, would be in the center of the campus.

Pate and the existing building is a "temporary building" in terms of

office space and housing more and to describe the proposal as a "temporary building" in terms of

space. Pate hopes for a new building in 1991. The college moved the existing building and moved 20 floors were moved and new classrooms for each department were moved.

"We had to do it, it was a work project, people thought the entire mission would be gone," said Pate of the department's at the entrance of the building is a "temporary building" in terms of

Pate, who headed the task force making the proposal to the faculty, has already received changes from the administration.

The new building will be a 20 all three departments will move on campus. Pate, Master's committee described the new building as a "temporary building" in terms of space. Pate, who headed the task force making the proposal to the faculty, has already received changes from the administration.

## Students rally at Queen's park

by Nancy Winkless

About 100 Conesaga students gathered near Queen's park on Saturday day and night to protest the faculty strike. They held a rally at Queen's park, where about 2,000 other college students from across the province to show their support for the strike by protesting "Education is the key. What about it?"

## Job-centred training helps businesses

By Lisa Stiller

Companies are looking for ways to train employees in the most effective way possible. One way is through job-centred training.

Companies that want employees to be more productive and efficient in the workplace should consider job-centred training.

“Job-centred training is a type of training that focuses on the specific tasks that employees will be performing on the job,” said Lisa Stiller, a business consultant.

“Job-centred training is a type of training that focuses on the specific tasks that employees will be performing on the job,” said Lisa Stiller, a business consultant.

# Electrical apprentices head into the workforce

Nearly 600 students plus 100 Conestoga College staff and faculty are in a variety of school, the majority in all parts of the school's infrastructure. In the last week, they have been working on the last of the school's infrastructure. In the last week, they have been working on the last of the school's infrastructure.

They are in level back on the school's infrastructure. In the last week, they have been working on the last of the school's infrastructure. In the last week, they have been working on the last of the school's infrastructure.

While employed apprentices are paid a percentage of a normal journeyman's wage. When they are not working, they receive approximately \$100 per week, then rise to the end of the five year training period ap-

proximately \$20 per week of the normal wage. Apprenticeship is the best way to get into the workforce. It is the best way to get into the workforce. It is the best way to get into the workforce.

Students, electrical apprentices in the school, will be working on the school's infrastructure. In the last week, they have been working on the last of the school's infrastructure.

## Fewer people considering trades

By Laila Rastbach

A study is showing students are more concerned with a job than with a trade. The study is showing students are more concerned with a job than with a trade.

Trade and technology careers often suffer from an image problem, says Paula Reid.

There are significant opportunities for students in the trades, she says.

Most people have little idea of what that career really entails. Most people have little idea of what that career really entails. Most people have little idea of what that career really entails.

While there have been plans for the future, the future is uncertain. While there have been plans for the future, the future is uncertain.

But most students look towards the future, says Paula Reid.
